eFloorGuide™.com

Visitor Guidance / Greeter • Dynamic Wayfinding • Remote Marketing • Patient / Facility Information • Much more…

Bring it all Together!
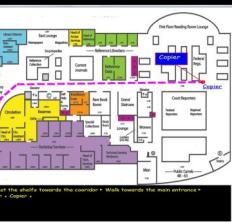

Multi-Lingual

Provide instant, "quick and easy", multi-lingual visitor greeting and navigation capabilities. Provide detailed directions to anywhere in your facility. Dynamic map generation allows last-minute changes and updates to occur instantaneously. Myriad of options and capabilities available.

Dynamic Navigation

Provide detailed directions FROM any point TO any point in your facility.

> *Where is the nearest exit?*
> *How do I get to Dr. Mellon's office?*
> *Where is the cafe?*
> *How to get to room 202?*
> *Where are the lavatories?*
> *Where is the X-Ray office?*

With a simple, web-based administrative interface you can define floor-maps, points and directions to virtually any point in your facility. Simple, easy, powerful.

Flexible

Our navigation kiosks are specifically made for public use. They are wireless and can be easily moved wherever you need them. Simply plug into the electrical outlet and the system is ready to go. All of the administration and settings is done via the web from anywhere.

$150 - $350 / month
